

Broken Hills

Nevada's New Bonanza Silver Camp

We have just financed the Broken Hills Silver Corporation

With an underwriting of Treasury Stock calling for the payment of \$380,000

THE rush to the new mining camp of Broken Hills, in Churchill County, 48 miles north of Luning and 63 miles southeast of Fallon, Nevada, continues unabated.

Reports from returning pilgrims corroborate the statement of Governor Emmet D. Boyle that "the showing in the Broken Hills mine is the best I have seen in any new territory in Nevada for many years."

A lense of ore is in open view on the property for a width of 120 feet and a length of 140 feet, which seemingly gives greater promise than any discovery made in the State of Nevada in many years.

Another lense of ore measures 55 feet wide by 130 feet long.

More remarkable even is the fact that these two lenses are not the main vein.

The main vein runs parallel to these mammoth deposits for a distance of 2100 feet. It is from three to nine feet wide and the ore averages over \$15 per ton as broken in the mine without any sorting out of the waste rock broken with it.

To date 450 tons have been shipped to the smelters that averaged \$120 per ton. This is the product of a high-grade streak down to the 150-foot level, the deepest working in the mine.

Besides the main shaft which has been sunk to the 150-foot point on the main vein, there are three other shafts which expose the vein over a big area. Drifts have also been run on the 50, 100 and 150-foot levels for a distance of several hundred feet.

It must be apparent that if the Broken Hills mine makes good to only a degree of present promise, it is destined to make new mining history for Nevada.

We are in close touch with all happenings in the new Nevada sensational mining district and solicit your inquiries
